ABOUT

WHAT IS LAMAR ?

LAMAR is a range of large format porcelain slabs available in the exclusive size of 320 x 80 cm. Porcelain slabs are one of the best surfaces currently available for dressing up your countertops, walls and other spaces. The design range from LAMAR resembles natural marble and adds an elegant look to your living areas.

Porcelain slabs are made from fine clay and minerals, fired in a kiln at temperatures reaching 1000 °C. Owing to the high temperatures and their composition, these slabs have negligible water absorption rate and are heat and UV resistant.

LAMAR NEDİR ?

LAMAR 320 x 80 cm özel boyutlarda geniş format porselen bir dizi levha çeşididir. Porselen levhalar tezgahlarınızı, duvarlarınızı ve diğer alanlarınızı kaplamak için şu anda mevcut olan en iyi yüzeylerden biridir. LAMAR'ın tasarım yelpazesi doğal mermer görünümü ile yaşam alanlarınıza estetik katar.

Porselen levhalar ince kil ve minerallerden üretilmiş olup, fırında 1000 °C'ye ulaşan sıcaklıklarda pişirilmiştir. Yüksek sıcaklıklar ve kompozisyonları sayesinde, bu levhalar göz ardı edilebilir su emme oranına sahiptir ve ısı ile ultraviyole ışıklara dayanıklıdır.
